5/26/71

Harold:

Refer to your note of 5/22/71 on Barbara Reid's 4/68 interviews with George Higginbotham. (Pages 242-3 of the Bud File, of which I sent you part.)

You noted that the reference ~~xx~~ to Davis at the bottom is illegible. Here is the relevant sentence (as underlined by JG):

"He felt that much of his information would not be considered, because in his opinion Lou Davis was and is a key factor in the submerged activities in this area, and because of friendship with Davis, Garrison would not follow them to a conclusion./ He feels there was much organization locally in respect to a conspiracy, than appears so far on the surface ...."
